

ENDOWED CAMBERSHIP

What is an Endowed Campership?

An Endowed Campership is a tremendously significant investment in the future of the young people we serve. It is a named fund established through a \$175,000 gift that is restricted to send a child to camp for a designated period of years or in perpetuity.

These funds ensure that we are able to deliver upon our mission of supporting motivated boys and girls who otherwise could not access a highly impactful summer camp experience.

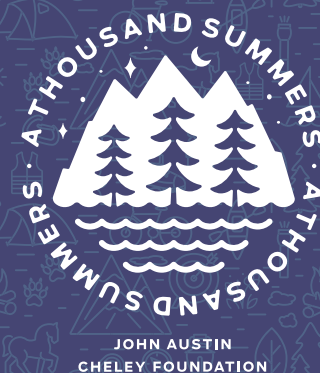

Those who participate in this unique opportunity will receive direct correspondence from each camper that their endowed fund supports, as well as an annual impact report highlighting the performance of their endowment fund and a record of their history of support.

Are you interested in providing an experience of a lifetime year after year for some of our amazing kids through our Endowed Campership Program?

Please call our office at 720.981.2532 x 100 or email us at giving@athousandsummers.org for more information.

"Over the last 50 or so odd years, I've packed up children and grandchildren, bags full to bursting with hiking boots, slickers, and socks. I knew these items would be forever changed—jeans, after a summer of riding, are never the same. But I also knew that my children and grandchildren would also be forever changed. Every time they came home, they were more independent and self-assured. Camp challenged them to attempt new skills and helped them learn to live with others. It reinforced a value system that we believed to be crucial for a happy life—honesty, integrity, grit, selflessness, humor, and not taking oneself too seriously.

After so many years as beneficiaries of the gifts camp has to offer, we wanted to ensure that all kids are exposed to camp, even when they can't afford it. We love the JACF because it not only supports the camp we love, Cheley, but also has vetted and elected to support camps that share the same ideals that formed the foundation of our families. We hope that our gift [of an endowed campership] inspires future generations to live courageously and kindly, to give generously of themselves, and to not take life so seriously."
